

Order complimentary materials for grades K-8

Engage students with energy safety, efficiency and sustainability resources!

Your classrooms may continue to be different this year, but teaching students about energy, the environment and utility safety shouldn't be. Our complimentary booklets can help maintain grade-level standards in ELA/Reading, Science, Social Studies and Health/Safety.

Order complimentary activity booklets for classroom use or to send home to students and their families

These high-interest booklets offer students an engaging break from screen time. They feature energy activities and experiments, power line safety and natural gas leak response tips, and home safety inspections to engage the whole household. When students share safety and energy resources with their families, everyone benefits!

Discover our Energy Explorer website

Our [Energy Explorer website](#) complements the activity booklets with more activities, experiments and games, as well as videos on electrical and natural gas science and safety. Use our website in the classroom and/or assign the online curriculum materials for remote learning at home.

Meet academic content standards

Our materials are developed by educators, for educators, and support Massachusetts, New York and Rhode Island academic content standards in ELA/Reading, Science, Social Studies and Health/Safety.

Thank you for your commitment to energy education and safety.
