nationalgrid

“ National Grid’s first responder e-learning is a valuable resource that emergency responders can utilize to prepare for and respond to utility-related situations they may encounter. The online training is self-paced, well-written, and easy to follow. ”

Robert Peacock

Chief of the Watch Hill Fire Department, Training Officer for the Rhode Island Southern Firefighters League and instructor with the Rhode Island State Fire Academy

To report emergencies, call **911** and **National Grid** immediately.

Gas emergencies:

Massachusetts **911** and **1-800-233-5325**

Rhode Island **911** and **1-800-640-1595**

New York

Long Island and the Rockaways: **911** and **1-800-490-0045**

Metro NY: **911** and **1-718-643-4050**

Upstate NY: **911** and **1-800-892-2345**

Electric emergencies:

New England **911** and **1-800-465-1212**

Upstate New York **911** and **1-800-867-5222**

Learn how to safely manage natural gas or other utility-related emergencies.

The modules include basic facility characteristics as well as specific response tactics in responding to a natural gas or electrical incident.

Take advantage of this fully remote learning opportunity. The course is modular, and can be done a step at a time, as your busy schedule permits.

Get started today!

1. Register at firstresponder.ngridsafety.com.

Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.

2. Complete the course at your own pace, on your own schedule. Begin your utility safety training, one module at a time.
