Training that can save precious minutes – and lives.

nationalgrid

104 Bridge Road
Salisbury, MA 01952

The First Responder Utility Safety Training program consists of two courses of study:

Natural gas safety certification – Gives you the information you need to safely identify and respond to incidents that involve natural gas pipelines and other natural gas facilities.

Electrical safety training certification – Gives you the information you need to safely identify and respond to incidents that involve electric power lines and other facilities.

Take advantage of this fully remote learning opportunity. The course is modular, and can be done a step at a time, as your busy schedule permits.
