

First Responder Utility Safety Training Program

This training course is free. In an emergency, it could be priceless.

No fluff or “book learning” here. The real-world curriculum was designed with the help of experienced fire chiefs, safety experts and first responders to give you the practical skills you need to prepare for natural gas and electrical emergencies.

Be ready by taking advantage of this fully remote learning opportunity. The course is modular, and can be done a step at a time, as your busy schedule permits.

Get started today!

1. **Register at firstresponder.ngridsafety.com.** Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.
2. **Complete all e-learning modules and receive a certificate of completion** that may serve to satisfy your department's utility safety training requirements.

“ This job requires continual study and learning to stay on top of every possible situation. National Grid's utility safety training provides the tools and the confidence to keep firefighters and others safe in natural gas and electrical emergencies. ”

Chief Instructor Robert Hughes
Nassau County Fire Service Academy
Old Beth Page, New York

To report emergencies, call **911** and **National Grid** immediately.

Know what's below.
811 before you dig.
