

# Protect our energy lines. Protect the community.

Please share this safety information with students and their families.

Know what's below.  
811 before you dig.

## Call before you dig

Call 811 if you plan to dig or move earth in any way – even just planting a tree or shrub. This free service marks the location of underground utility lines so you can dig a safe distance away from them. After you call, wait your state's required time before digging.

Always contact your state 811 center before digging and for the most current requirements.

**Be alert for gas leaks – Smell Gas. Act Fast.**

Use your eyes and ears, as well as your nose, to detect a natural gas leak. Gas leaks usually have a distinctive, sulfur-like odor – but not always. So be alert for additional warning signs such as dirt spraying or blowing into the air from a hole in the ground, a whistling, hissing or roaring sound, continuous bubbling in water, or grass or plants dead or dying (in an otherwise moist area) over or near a pipeline.

## If you suspect a gas leak

- Leave your home or the outside area immediately, and move to a safe location.
- Call 911 and National Grid.
- Warn others to stay away.
- Even a tiny spark could ignite the gas:
  - Never use a phone or cell until you are safely away.
  - Never operate electric appliances or switches, such as lights, doorbells, radios, televisions or TV remotes, and garage door openers.
  - Do not strike a match.
- Never try to extinguish a gas fire or turn a valve on pipeline equipment.

# Meet state academic content standards.

Discover a full range of resources today at [ngridenergyworld.com](http://ngridenergyworld.com).

The **Energy Explorer website** contains the tools you need to help students learn about energy safety, sustainability and stewardship.

Take advantage of our free **Energy Explorer** program.

## Student booklets

Let students take a break from screen time and use our booklets at home with safety inspections, power line safety, natural gas leak response tips and more. When students share safety and energy resources with their families, everyone benefits.

## Order your FREE Energy Education resources today!

You can obtain free educational resources at [ngridenergyworld.com/teachers](http://ngridenergyworld.com/teachers) or via the attached, postage-paid business reply card. Materials will ship directly to your school within two to four weeks. Supplies are limited and orders are filled on a first-come, first-served basis, so order today.

Point your phone's camera at or scan this code to go to the order page.

Thank you for your commitment to energy education and safety.

 <p><b>Aunt Sarah and the Amazing Power</b></p> <p>This beautifully illustrated storybook tells a charming tale of three lovable kittens and their Aunt Sarah, while introducing the benefits of electricity in the home.</p> <p><b>Grades K-2</b></p>	 <p><b>My Natural Gas Safety Activity Book</b></p> <p>Engaging coloring pages and challenging puzzles lead non-readers and early readers through the basics of natural gas safety.</p> <p><b>Grades K-2</b></p>
 <p><b>Natural Gas: An Invisible Fuel</b></p> <p>Students explore where natural gas comes from and how to use it safely and wisely through fun-filled puzzles, lessons, math activities and word games.</p> <p><b>Grades 3-6</b></p>	 <p><b>Renewable Energy World</b></p> <p>Help kids become smart energy users who understand how their energy choices affect the environment.</p> <p><b>Grades 3-7</b></p>
 <p><b>Energy Efficiency World</b></p> <p>This exciting booklet teaches key science concepts and contains science experiments, mathematical activities and creative exercises throughout.</p> <p><b>Grades 4-6</b></p>	 <p><b>Electrical &amp; Natural Gas Safety World</b></p> <p>This engaging activity booklet helps teach mandated science concepts while reinforcing electrical and gas safety messages.</p> <p><b>Grades 4-6</b></p>
 <p><b>Energy and Your Environment</b></p> <p>Colorful, magazine-style pages explain how we get our energy from the planet and how our energy use affects the environment.</p> <p><b>Grades 7-9</b></p>	 <p><b>Download free activity sheets</b> that review key principles to help teach the material to your students.</p>
