

Order complimentary materials for grades K-8

Help teach students about energy safety, efficiency and sustainability.

Our booklets and website offer lesson plans that include teacher's guides and pre/post tests to help you assess learning. We also make it easy to implement with detailed background information, discussion points, follow-up activities and answer keys.

Order activity booklets to share with your students.

These high-interest booklets feature energy activities and experiments, power line safety and natural gas leak response tips and home safety inspections. When students share safety and energy resources with their families, everyone benefits!

Energy Explorer website

Our [Energy Explorer website](#) complements the activity booklets with more activities, experiments and games, as well as videos on electrical and natural gas science and safety.

Meet academic content standards

Our materials are developed by educators, for educators, and support Massachusetts, New York and Rhode Island academic content standards in ELA/Reading, Science, Social Studies and Health/Safety.

Thank you for your commitment to energy education and safety.
