

First Responder Utility Safety Training Program

Be ready for a natural gas emergency.

Are you and your team ready to deal with a significant natural gas emergency? Knowing exactly what to do – and what not to do – can save precious minutes and lives.

Our thorough, no-nonsense curriculum was designed with the help of experienced fire chiefs, safety experts and first response instructors. It’s modular in design, allowing you to continue training whenever your busy schedule allows.

Get started today!

1. Register at firstresponder.ngridsafety.com. Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.
2. Complete all e-learning modules and receive a certificate of completion that may serve to satisfy your department’s utility safety training requirements.

Comments we’ve received from local first responders who have taken the course:

“ I am the Safety Training officer for my department and I will use this for all of our members. ”

“ Highly informative and has helped me refresh my response to these types of incidents. ”

“ I thought this training was very helpful and I felt like I learned a lot from it. ”

To report emergencies, call **911** and **National Grid** immediately. Always call **911** if you suspect a gas leak!

In case of gas emergencies:
