

Protect our energy lines. Protect the community.

Please share this safety information with students and their families.

Use your eyes and ears, as well as your nose, to detect a natural gas leak. Gas leaks usually have a distinctive, sulfur-like odor – but not always. So be alert for additional warning signs such as dirt spraying or blowing into the air from a hole in the ground; a whistling, hissing or roaring sound; continuous bubbling in water; or grass or plants dead or dying (in an otherwise moist area) over or near a pipeline.

If you suspect a gas leak

- Leave your home or the outside area immediately, and move to a safe location.
- Call 911 and National Grid.
- Warn others to stay away.
- Even a tiny spark could ignite the gas:
 - Never use a phone or cell until you are safely away.
 - Never operate electric appliances or switches, such as lights, doorbells, radios, televisions or TV remotes, and garage door openers.
 - Do not strike a match.
- Never try to extinguish a gas fire or turn a valve on pipeline equipment.

Know what's below. 811 before you dig.

Always contact your state 811 center before digging and for the most current requirements.

Order your FREE teaching resources today!

Two easy ways to order:

1. Online

ngridenergyworld.com/teachers

Point your phone's camera at or scan this code, complete the online order form and submit.

2. Mail

Complete the order card (attached), fold along the perforation, tear and mail. No postage required.

Please, no phone orders. Quantities are limited, and orders are filled on a first-come, first-served basis. If inventories are depleted, you will be notified. Orders for these educational materials are restricted to schools within National Grid's service territory.

Energy Explorer Program

Elevate learning with FREE, high-quality resources for students and teachers.

Visit ngridenergyworld.com/teachers to learn more.

Classroom resources to teach students about energy.

Dear Educator,

Safe behaviors begin with awareness. That's why we're offering a selection of resources that were designed to facilitate understanding of topics related to energy safety, efficiency and sustainability, while promoting essential skills such as responsible decision-making and critical thinking.

Boost engagement with high-impact print materials

Artfully designed booklets feature inquiry-based experiments, engaging activities, thought-provoking discussion guides and more. Utilize them in the classroom or send them home to encourage family involvement.

Optimize learning with digital resources

Downloadable activities and interactive games reinforce the topics covered in the print materials, while engaging students with varied learning styles.

Enhance your classroom environment at no added cost

All of our resources come at no cost to you. Corresponding teacher's guides and pre/post tests assist with implementation and knowledge assessment, and each of the available resources addresses critical content in alignment with state and national standards.

We appreciate your commitment to education and hope that these materials will provide value to you and the students you serve.

To a brighter tomorrow,

Social Impact Team
National Grid

FREE booklets touch on a variety of natural gas safety-related topics.

My Natural Gas Safety Activity Book

Grades K-2

Kato the Safety Cat introduces kids to the basics of natural gas and natural gas safety, including what it's used for and how to recognize and respond to leaks.

Natural Gas: An Invisible Fuel

Grades 3-6

Activity prompts, word puzzles and math exercises are interwoven with scientific concepts to ensure understanding of natural gas-related topics.

Additional titles now available.

Downloadable booklets are now available in Spanish.

FREE digital resources at: ngridenergyworld.com.

The **Energy Explorer website** contains the tools you need to help students learn about energy safety, sustainability and stewardship.

Order FREE teaching resources from National Grid

Simply fill out this card and mail it, or order online at ngridenergyworld.com/teachers.
