HERE WITH YOU. HERE FOR YOU.

Are you
prepared?

Train for the unexpected.

Learn how to safely respond to natural gas emergencies.

National Grid's First Responder Utility Safety Training Program is a free, self-paced online training course that helps first responders save lives, prevent damage and protect the public. It includes lessons about distribution systems, gas properties, incident management and more.

Be prepared.

Register and complete your online training today at firstresponder.ngridsafety.com.

Smell Gas. Act Fast.
