HERE WITH YOU. HERE FOR YOU.

# Important Dig Safe<sup>®</sup> operation change notice

Who to call before you dig: Only 811.

**Smell Gas. Act Fast.**

# Important Dig Safe® operation change notice

Know what's below.  
**811 before you dig.**

## Notify 811, and dig with care

National Grid previously outsourced their locating services for the gas distribution system. We now perform all locating and mark outs of gas facilities in the state of Rhode Island.

You may have forged relationships with a representative at the locating service we previously outsourced to. However, never circumvent the 811 system. It's not only the right thing to do, it's the law! Dial 811 before you dig.

## Excavator information

All excavation 811 requests, changes to original request or requests for additional assistance should be directed to the Dig Safe® center. It's the law. Only dialing Dig Safe will ensure your request is properly entered, supported and responded to.

811 or 1-888-DIG-SAFE (344-7233) | [digsafe.com](http://digsafe.com)

For excavator information sessions on topics such as Dig Safe, how the Call Before You Dig Program works, the Dig Safe law and excavation safety tips, visit [digsafe.com](http://digsafe.com).

For gas emergencies, call **1-800-640-1595** or **911**.  
For electric emergencies, call **1-800-465-1212** or **911**.
