

nationalgrid

HERE WITH YOU. HERE FOR YOU.

National Grid is proud to launch the one place to get specifications and requirements for a safe natural gas installation!

Specifications and requirements for gas installations – known as National Grid’s Bluebook – is now available!

Safety is our number one priority! As professionals in the field, we want to introduce you to our new “Bluebook – Specifications and Requirements for Gas Installations.”

The Bluebook contains:

- Codes references
- Standard drawings
- Measurements and requirements to ensure a safe and successful gas meter set

The Bluebook will assist you with new, added, upgraded or modified gas installations, providing for a safe, accurately sized and cost-effective installation that will give long-lasting, satisfactory service to customers and complies with New York State Law, various codes and other safety requirements.

To obtain your free copy:

Visit nationalgridus.com/ProNet/Services-Tools

Under **Customer** type, click “Residential”

Under **Region/Location**, pick your region

Under **Energy Type**, select “Natural Gas”

Then scroll down to “**Gas Operations Blue Book**” on the right-hand side of the page.

Know what's below.
811 before you dig.
