Four horizontal lines in green, blue, red, and yellow are positioned at the bottom of the page.

Train to safely respond to utility hazards.

Designed with first responders, for first responders.

As first responders, you are the first line of defense between utility-related hazards and the public. We are committed to continuously delivering the finest-quality utility safety training to keep you safe.

Latest First Responder Utility Safety Training:

PV solar e-learning

Free, self-paced training modules:

- cover valuable utility incident response tactics
- satisfy department in-service training requirements
- certificates of completion when successfully completed
- topics: PV solar system facts, basics and incident response tactics.

Natural gas group training exercises

In-depth, discussion-based safety training using these real-world scenarios:

- gas main leak with no ignition
- gas service leak with ignition
- gas odor from an unknown source
- residents overcome by carbon monoxide.

**Keep yourself, your team and the public safe.
