

First Responder Utility Safety Training Program

Safety begins with action.

When a gas line is damaged or wires are down, every second counts. The right skills help you stay calm, confident and ready to respond.

The natural gas course has seven modules, from the basics and common incidents to more advanced training.

Get started today!

1. **Register at firstresponder.ngridsafety.com.** Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.
2. **Complete all e-learning modules and receive a certificate of completion** that may serve to satisfy your department's utility safety training requirements.

Toxicity

- Natural gas is non-toxic.
- Natural gas can displace oxygen.
- Oxygen deficient atmosphere = asphyxiation

These courses were designed with the help of safety professionals and experienced fire chiefs.

To report emergencies, **call 911** and **National Grid** immediately. Always **call 911** if you suspect a gas leak!

Know what's below.
811 before you dig.
