

Online Excavator Safety Course

Before your crew breaks ground, make sure safety is part of the plan.

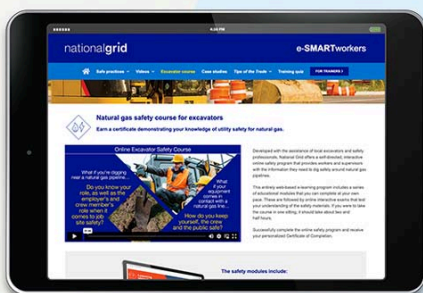

Our FREE online Excavator Safety Course gives you the knowledge you need to dig safely around natural gas pipelines – so you can avoid accidents, costly downtime and potential fines.

The course was developed with input from local excavators and safety pros, making it relevant, practical and designed with your crew in mind. Self-paced learning enables completion one module at a time.

Don't wait. Enroll today!

1. Register at ngridssafety.com/utility-safety-course. Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.
2. Complete all e-learning modules and receive a certificate of completion to recognize your commitment to safe digging practices.
