Protect your crew. Prevent accidents.

Draft saved at 12:32 PM

Hi [First Name],

I wanted to share an essential resource from National Grid: a **FREE** online **Excavator Safety Course** designed to help you and your crew work safely around natural gas pipelines.

In this self-paced training, you'll learn how to:

- Reduce risks and prevent accidents
- Work a safe distance from buried utilities
- Use 811 before every dig – it's the law
- Earn a certificate to demonstrate your commitment to safety

This course was created with the help of local excavators and safety professionals, so it's built for real-world job sites.

Keep crews safe. 👉 Free Excavator Safety Course: Sign up here

Best,

[Your Name]
