

First Responder Utility Safety Training Program

Safety starts with knowledge

Our e-learning platform offers FREE, online training on natural gas and electrical safety. Courses are self-paced and include modules on gas leaks, LNG, carbon monoxide, electrical hazards, downed lines and solar power systems. Upon completion, participants earn a certificate to document their training.

Take the next step toward safer, more effective incident response.

Get started today!

1. **Register at firstresponder.ngridsafety.com.** Once you create your user ID and password, you'll be able to access all the e-learning modules and resources.
2. **Complete all e-learning modules and receive a certificate of completion** that may serve to satisfy your department's utility safety training requirements.

What are other first responders saying about the program?

“I have over 25 years on a municipal Fire Department. I couldn't believe how much I learned!”

“Highly informative and has helped me refresh on my response to these types of incidents.”

To report emergencies, **call 911** and **National Grid** immediately. Always **call 911** if you suspect a gas leak!

Know what's below.
811 before you dig.
