430 Boston Street, Suite 103
Topsfield, MA 01983

Help reduce excavation-related incidents across your community.

Our FREE online Excavator Safety Course is an easy resource you can share with contractors, developers and crews who work near underground utilities.

By sharing this training, you can:

- Promote safer construction and development
- Support compliance with local and state rules
- Provide a consistent safety message
- Protect residents and infrastructure

Workers in Massachusetts can take the course for CSL CEU credit, making it an accessible option for licensed professionals.

Note: This course is not part of New York's required Excavator Training offered by the state's one call centers.
