

Accidents involving electrical equipment

DO NOT exit the vehicle. If it can be moved safely, drive the vehicle away from electrical equipment. If not, stay in your vehicle.

WARN bystanders to stay *at least 30 feet* away.

CALL 911 and wait for utility workers to arrive.

Assume all downed lines are **energized and dangerous**, even if they don't hum or spark.

Exit the vehicle ONLY if forced out by smoke or fire.

- 1. Plan** your exit route to avoid sagging or downed lines.
- 2. Jump** clear of your vehicle. **DO NOT** touch the vehicle and the ground at the same time.

- 3. Land** with your feet together and shuffle away with small steps. Keep your feet close together and on the ground at all times.
- 4. Shuffle** *at least 30 feet away* and do not return to the vehicle.

nationalgrid

Downed or damaged power lines

CALL 911 immediately.

KEEP yourself and your vehicle far away.

STAY in your vehicle.

NEVER approach a downed line or try to move it with any object.

DO NOT TRY to rescue someone who is being shocked by a downed power line.

Assume all downed lines are **energized and dangerous**, even if they don't hum or spark.
